

**PON CAD software designs Scaffolding without Scheme limits.**  
Example of a Scaffolding Project designed for the Maintenance of an Industrial Plant

[Watch the 3D model](#)

**PON CAD** has been designed for the realization of scaffolding projects which are characterized by complex assembly schemes, typical of industrial plants. It is possible to draw using existing 2D and 3D layouts on CAD, making your job simple and precise.

PON CAD offers **Technical Drawings, Material List, Structural Verification, Assembly Diagrams, full BIM, VR and AR.**
